Art Unit: 1774

1. Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. This claim depends from a canceled base claim. Correction is required.

2. Claims 1, 2, 6-9, 11-14, 18, 29-37, 40, 42 and 46 are allowed.

3. In their response, it is requested that applicants update the specification by providing serial numbers and status information for all application docket numbers referred to therein. In addition, in the interview of September 8, 2006, Ms. Blank indicated that the specification would be amended to support the language of claim 1 directed to "at least 68% of have a diameter of less than 0.5 micrometers." In order to complete the record, this amendment to the specification should also be part of applicants' response. In the alternative, applicants may present reasons why such an amendment is unnecessary to support the language of claim 1 cited above.

4. All prior rejections have been overcome based upon amendments to the claims. The only remaining rejection is that of claim 25 set forth above.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pamela Schwartz whose telephone number is (571) 272-1528.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rena Dye, can be reached on (571) 272-3186. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
